- ▶ Addiction: Excessive use affecting mental health and daily life
- ▶ Defamation: Publishing false statements damaging reputation

SCAM

Cyberbullying & Trolling

37%

of youth globally have experienced cyberbullying

60%

do not report it

15%

considered self-harm

Cyberbullying includes threatening messages, embarrassing photos, fake profiles, and exclusion from groups.

- Common among teenagers and young adults
- Platforms like Instagram, Snapchat, and TikTok are hotspots
- Can lead to depression, anxiety, and suicidal thoughts
- Trolling is often anonymous, making accountability difficult

Fake News & Disinformation

Privacy Violations & Data Misuse

- ❖ Doxing: Publishing private information without consent
- ❖ Stalking: Using location tags and check-ins to track individuals
- ❖ Data Harvesting: Apps collecting user data for ads or selling to third parties
- ❖ Cambridge Analytica (2018): 87M Facebook users' data harvested for politics
- ❖ Revenge Porn: Sharing intimate images without consent – punishable under IT Act
- ❖ Deepfakes: AI-generated fake videos for blackmail and defamation- Highlight box: Tip: Review app permissions, use two-factor authentication, and avoid oversharing location data.

🧠 Impact on Mental Health & Addiction

Legal Framework in India

- ❑ IT Act, 2000 (Amended 2008): Sec 66C (identity theft), Sec 67 (obscene content)
- ❑ IPC: Sec 499-500 (defamation), 153A (promoting enmity), 505 (public mischief)
- ❑ POCSO Act, 2012: Protects minors from online sexual abuse
- ❑ IT Rules, 2021: Platforms must remove unlawful content within 36 hours
- ❑ DPDP Act, 2023: Regulates personal data processing by digital platforms
- ❑ Proposed Digital India Act: Comprehensive digital governance framework
